October 2012

Dear Sir or Madam:

Hillside School is a grade 5-9 independent middle school for boys in Marlborough, MA. It provides a supportive atmosphere for the middle school boy at a crucial time in his development. The atmosphere includes small classes, individualized instruction and a structured environment with emphasis on development of academic and social skills. It serves traditional learners who want a more personalized education and boys with learning differences.

The Hillside Parent and Family Association (HPFA) believe strongly in the mission of this wonderful and truly unique school. Every day, we witness the magic of a young boy, who may have struggled in another setting, developing into a confident individual, ready for high school. In order to help further the Hillside mission, the HPFA is sponsoring a raffle and auction in conjunction with its annual Spring Fling event on May 3-4, 2013. All the money we raise will help fund programs and scholarships supported by the HPFA at Hillside.

We are asking you to make a donation to our school. Your gift will not only qualify as a charitable contribution under the law and help the school in its mission, but will also serve as an advertisement for your company to the Hillside community. The school draws many families from the Boston area, other states, and even international visitors to the area. All goods and services will be displayed at the school along with the name of the donating company or individual. The names of donors will appear on flyers displayed throughout the school and in the catalog that over 250 parents will receive, with a request that the parent body patronize your business.

Thanks to the support of establishments like yours, we have been able to raise funds to support our faculty and curriculum. This allows the school to offer enhancements to the programs without additional tuition costs. We hope you will consider a donation.

Sincerely,

Hillside Parent and Family Association
