

HILLSIDE SCHOOL

HOCKEY PROGRAM

Program Overview

Recognized as the leading program of its kind in the country, Hillside graduates go on to attend top prep schools and colleges.

The Hillside School hockey program offers its student-athletes a comprehensive and highly competitive season, combining daily intensive practices (including off-ice training) with a 40 game schedule. The majority of our games are played on New England prep school campuses. By competing at a very high level, our boys have great opportunities for exposure and to be recruited by the secondary schools they aspire to attend. Hillside seeks student-athletes who can compete at a high level and aim to attend top independent secondary schools - the gateway to college hockey. Along with our core values, coaches look to instill such life-long lessons as hard work, team play, overcoming adversity, grit, and commitment.

The New England Sports Center - home of Bulldog Hockey

- The premier ice hockey facility in the Northeast, only one mile from campus
- 8 ice sheets and off ice training facility
- Our own, state of the art locker room
- Practice every day

Former Hillside Bulldog and KUA standout excelling at UMass Lowell

Andranik Armstrong-Kingkade (Hillside '15), a key player in Kimball-Union Academy's back to back New England Championships has been making a name for himself in Hockey East at UMass Lowell. Armstrong is the leading scorer in Bulldog hockey history and attributes much of his success on and off the ice to his time spent at Hillside School.

"My time at Hillside laid the foundation for the student-athlete I am today. It has always been my dream to play college hockey and to have the opportunity to do that at UMass Lowell is nothing short of a dream come true. The school, the program and the coaches are second to none."
